Name of the One Movie Reviewed:

Self-Explanation

Name of the Author of the One Minute Video:

Kelley Predieri

What do you think was the objective of the movie: Visualize and Show what Self-Explanation looks like

Criteria	Yes or No ^{***}
A title slide is present/effective	Yes
One minute or less in length	Yes. 59 seconds
Ending credits (to include image sources)	Yes
Audio voiceover and musical background sound quality	Excellent
The presentation of the content tells a story	Yes
It is clear what the movie is teaching.	Yes
Ending Credits evidenced	Yes

^{***}Please add comments with timing to indicate where revisions can be made or the movie can be improved.

Other Comments: Entertaining and straightforward. You could be one of my students! Good use of crossfade in delineating between the scenes.

Student Name Robert Sack

Movie Name Elaboration: A Strategy for Learning.

Movie Objective: Demonstrate the concept of elaboration

Scene 1 (Time in seconds Beg: 0 End 3)

Audio (Music)	Visual (describe potential images)
Uplifted by FoolBoyMedia	Title Slide Elaboration: A Strategy for Learning Photoshop Chalkboard {crossfade}
Audio (Voiceover)	

Scene 2 (Time in seconds Beg: 3 seconds End 23 seconds)

Audio (Music)	Visual (describe potential images)
Uplifted by FoolBoyMedia (Continuation)	<u>1.5 seconds</u> Bob at desk on computer {crossfade} <u>18.5 seconds</u> Video produced by iPad Mirroring of typing “What is a parabola?” and the definition on graph paper using Notability. Then hand drawing of parabola. {crossfade}
Audio (Voiceover)	
So, I have to learn what is a parabola. A parabola is a set of points on a plane with equal distance from a point called the focus. I can draw a parabola but don't know what it means.	

Scene 4 (Time in seconds Beg: 23 End 36)

Audio (Music)	Visual (describe potential images)
<p>Uplifted by FoolBoyMedia (Continuation)</p>	<p>Bob typing into Google on computer and {crossfade} into Google looking up parabolas.</p>
<p>Audio (Voiceover)</p> <p>So let's see. Parabola uses in real life.</p> <p>So now I know how parabolas work and how they are used. I'm glad I used elaboration.</p>	

Scene 5 (Time in seconds Beg: 36 End 48.5)

Audio (Music)	Visual (describe potential images)
<p>Uplifted by FoolBoyMedia (Continuation)</p>	<p>Bob at desk drawing on iPad.</p> <p>Animate drawing of parabola showing satellite and beam reflecting off the dish into the antenna on the focus.</p>
<p>Audio (Voiceover)</p>	
<p>I now know how a parabola works. The focus is where the antenna goes and the parabola dish part reflects the radio signals to the focus which contains the antenna</p>	

Scene 6 (Time in seconds Beg: 48.5 End 53)

Audio (Music)	Visual (describe potential images)
Uplifted by FoolBoyMedia (Continuation)	Bob at computer. Turns toward camera. Speaks "I finally know what a parabola is"
Audio (Voiceover)	

Scene 7 (Time in seconds Beg: 53 End 59)

Audio (Music)	Visual (describe potential images)
Uplifted by FoolBoyMedia {Audio Fade Out}	{crossfade} Closing Credits.
Audio (Voiceover)
