

Audio Sound Merge Plan

Name: Robert Sack

Determine the Purpose of the Merged Sound File you are creating: The purpose of the merged sound file is to introduce my interpretation of what **JOYFUL** sounds like and to attempt to elicit a **joyful** emotional response.

For the next two questions (highlight one or more that describes your project or add and highlight your own word):

Merge File Purpose: inform, **entertain**, introduce, expression, persuade

Intended Tone: calm, serious, humorous, scary, zen, frantic, angry, **happy**, animated, passionate, direct, dignified, defiant, curious, excited, joyful, optimistic, and cheerful

Audio Files Chosen:

Laugh Together ¹
Corn Rambler ²
Bubble Chrome ³
Cleansing Sun ⁴

Plan (write a narrative plan of the order of files and fades - Include the words you will record as an introduction and conclusion [less than 4 seconds each])

The 49 second sound file starts with a voiceover of my introducing the word of the day, **Joyful** over the end of LaughTogether.mp3 After the voiced introduction, it is then followed by a fade-in of LaughTogether.mp3 and a voiceover of the Spanish translation of the word "joyful". with a fade-out of the music. I fade-in with a slight overlap of CornRambler.mp3 with a voiceover of the Dutch translation of the word with a fade-out and then a fade-in to BubbleChrome.mp3 where I tell the origin of the word joyful with a subsequent fade-out. The concluding music is CleansingSun.mp3 which is faded in followed by the concluding voiceover and then faded.

Approximate Time: 58 seconds
